

Specialty Non-cycling Type II Circuit Breakers

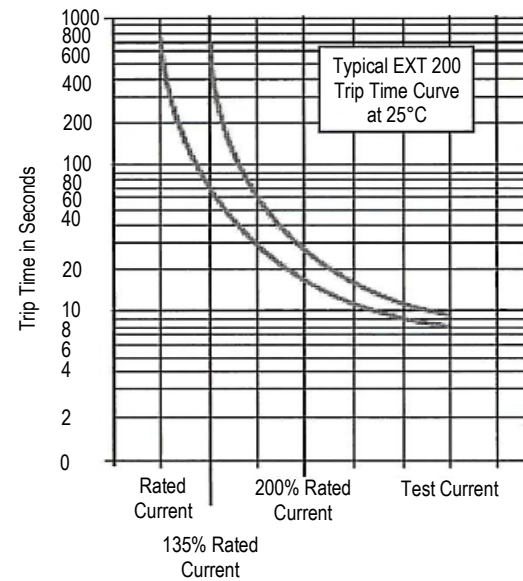

Waytek Stock No.	Amps
46610	10
46615	15
46620	20
46625	25
46630	30

Features:

- Contact Material: Tin Plated Brass
- Normal Operating Voltage: 12 volts
- Operating Temperature: -40°F to 185°F (-40°C to 85°C)
- Typical voltage drop at operating current: 2.00mV max

Notes:

These curves are to be used only as a guide in selecting a protector for a particular application. Factors such as distance from the heat source and the method of mounting should be considered in selecting a protector. Final trip times are dependent upon terminal configuration and mounting in the application.
