SGR Battery Cable

Waytek now offers a new line of highly flexible EPDM jacketed battery cable. The combination of a high strand count as well as a flexible EPDM jacket allows the cable to be routed around sharper bends than our standard battery cable. SGR battery cable is perfect for applications in automotive, grounding, lighting, tool and any motor vehicle equipment.

FEATURES & BENEFITS

- Highly flexible EPDM jacket and paper separator
- Meets SAE J1127 and meets the battery cable requirements of UL 558 and UL 583
- Available in either black or red
- Maximum voltage: 60V
- Operating Temperature: -50°C to +105°C

GAUGE	TYPE	PUT UP (ft.)	WEIGHT/100 ft.	TYPICAL STRANDING	NOMINAL O.D. (in.)
6	SGR6	100, 250, 500*	112 lbs.	260/30	.318
4	SGR4	100, 250, 500*	149 lbs.	364/30	.358
2	SGR2	100, 250*	236 lbs.	624/30	.422
1	SGR1	100, 250*	306 lbs.	767/30	.503
1/0	SGR0	100, 250*	371 lbs.	975/30	.538
2/0	SGR00	100, 250*	450 lbs.	1196/30	.591
3/0	SGR000	100	567 lbs.	1547/30	.630
4/0	SGR0000	100	708 lbs.	1950/30	.718
