

How to Reset Your Waytekwire.com Password

1

After Navigating to www.Waytekwire.com, you can access the sign in page by clicking the link in the top right corner of the screen.

2

On the left-hand side of the page underneath the password field, click on "Forgot Password".

The screenshot shows the top navigation bar with links for Products, Manufacturers, Support, About Us, and Quick Order. Below the navigation bar, there is a message about same-day shipping and a phone number. The main heading is "Sign In". Underneath, there are two sections: "ALREADY HAVE AN ACCOUNT?" and "CREATE NEW ACCOUNT". The "ALREADY HAVE AN ACCOUNT?" section contains a "User Name" field, a "Password" field, a "Remember Me" checkbox, and a "Forgot Password" link highlighted with a red box. A "Sign In" button is located below these fields. The "CREATE NEW ACCOUNT" section includes a registration message and a list of features, with a "Create Account" button at the bottom.

3

In the Pop-up box, please enter your username. This should be the email address that you registered with. Then click on Send email.

This screenshot shows the same "Sign In" page as above, but with a "Reset Password" pop-up box overlaid. The pop-up box has a title bar with a close button (X) and contains the text: "Enter your username and we'll send you an email that will allow you to reset your password." Below this text is a "Username" field with the placeholder "Enter username:" and a "Send Email" button. A "Return to sign in" button is also present. The background page is dimmed, and the "Forgot Password" link from the previous screenshot is still visible.

Emails are typically received within 5 mins of submitting the request, as long as the email was entered correctly and is the same email used to register an account. This should be the same email address as your username.

****This is a time sensitive email and will expire after 24 hours. ****

4

From the email, please click on the Reset Password Button.
